

Got questions about BANK TECH SUMMIT? Chances are, we have the answers below:

1

Who participates?
Those who work at community banks and credit unions, many of whom are our firm's clients.
Leading tech providers to the banking industry will exhibit and be available for questions and meetings upon request.
Speakers/industry thought leaders on a wide range of topics from tech trends, payments, cybersecurity, regulatory compliance, risk management, bank performance, customer experience, and digital transformation.

2

How many people attend?
Typically, attendance is in the 100-200 person range.

3

What is the format?
All sessions take place in the same ballroom with all participants present. Exhibitors, sponsors, speakers, and the audience are all in the same room...no segregation...no separation. This promotes a unified and comfortable environment where all are welcome and able to hear the same messages.
Sessions last from 30-50 minutes with a break after each session.

4

How does this event benefit my bank and me?
Bank Tech Summit serves as the catalyst for your strategic technology initiatives as we provide a wealth of valuable information on the latest tech, payments, and cybersecurity trends to make your bank better. For you, you will network with industry leaders, tech innovators, and banking peers who will serve as tremendous resources, helping you advance your career and increasing your value to your bank.

5

What makes this event unique?

The environment is high-energy yet comfortable. No hard sales pitches. We work hard to make everyone feel welcome.

We have a DJ for the whole event as we strongly believe that music (at breaks and other intervals) keeps the vibe positive and upbeat.

We are not promoting any specific companies or solutions, so the audience gets independent and objective views on the topics that are top-of-mind with bankers today.

We are fortunate to have so many friends in the industry who come to share their knowledge with the bankers and other participants.

We also give away cool tech prizes and play games for cash prizes to keep people engaged and to keep the fun-level high.

6

Why is the event in St. Louis this year? You've had it in Memphis in years past.

Several reasons. One, we opened a new office in St. Louis in June of 2021, so we are proud to show off our new workspace in the PwC Pennant building. We will be having a reception at our new office on Monday, April 25. Next, we will be at [Live! By Loews](#), one of the newest and best hotels in St. Louis. We will also be in the heart of [Ballpark Village](#), a great venue for sports, entertainment, and restaurants.

7

You will be in St. Louis. Will there be baseball?

Of course! We will be combining a baseball game with **Bank Tech Summit**, as we step across the street to iconic [Busch Stadium](#), home of the 11-time World Champion [St. Louis Cardinals](#) who will be taking on the New York Mets on Wednesday, April 27, at 12:15 p.m. Registered conference participants will be invited to attend the game with the Sawyers & Jacobs team and enjoy the luxurious [UMB Champions Club](#), an all-inclusive area.

8

Will I go hungry?

Never! We serve a full breakfast each morning and a nice lunch. We will also have receptions (Monday and Tuesday) where there will be plenty of food and drink. We will have refreshment breaks throughout the day. Dinner will be on your own each evening. For the Wednesday ballgame, we will provide an all-inclusive buffet and bar.

9

How long has this conference been in existence?

We had our first **Bank Tech Summit** in 2006, so this will be our 16th event. After a pandemic-induced hiatus from being live, we are excited to be back, in-person, at full force.

10

Will I receive CPE credit?

Yes. The [Barret Graduate School of Banking](#) is our CPE sponsor, and you will receive 14.5 credit hours for this event.

READY TO REGISTER?

Simply go to www.sawyersjacobs.com and choose one of the five easy ways to secure your seat at this exclusive, invitation-only event.

We hope to see you in **St. Louis on April 25-27** for three days of big energy, bank tech, and baseball.
